

4-H Shooting Sports

Safety, Knowledge,
Understanding & Skills

The 4-H Shooting Sports Program is a hands on firearms safety training and natural resources program for girls and boys ages 9 to 19 years old.

- **Certified 4-H volunteer instructors** supervise each 4-H Shooting Sports Program session. Many hold dual certification with other state and nationally recognized education programs.
- **Safety** is always a primary concern. Youth and adults are trained to know and adhere to the Ten Commandments of firearm safety.
- **Knowledge** about firearms and the natural environment is featured as the volunteers share years of experiences.
- **Skills** are developed under the watchful eyes of the instructors. For some youth, these are new. Others improve and practice their techniques.
- **Understanding** is the most important component of the 4-H Shooting Sports project. It is developed as youth and adults become aware of their rights, responsibilities and their role in the natural environment.
