Pay close attention to **cut-off dates for sending in the applications.** This year, the number of competitors will be limited to the first 40 **Per Event** who send **applications AND prepayments.** After that, we will take entries ONLY if there are available firing points left due to timely cancellations, etc. Get your prepaid application in early!!!

Please tell your club leaders and friends about our upcoming fun! We hope to see you there!

One Final Note:

This is not the annual State Fun Shoot; however, it is taking place at and during the annual Fun Shoot. This is a Championship Competition event. Only those who have actually participated in the covered shooting sports should be participating in this competition. In other words, if you participated only in a 4-H Trap program, you should not be competing in any of these events, etc... But, if you have participated in all of the 4-H shooting sports, then by all means, you should be competing in all of the events of this program.

You can, however, still participate in all of the Fun Shoot activities while here, including similar activities being covered by this event.

The high three scores for the day will count toward the daily team score. If there are 4 members to a team, the low score for the day will be dropped. States with less than 3 competitors are not eligible for team awards. A state does not have to send a complete team to compete in the National Invitational Match. Individuals may come and participate and are eligible for individual recognition and awards. A maximum of 4 individuals per category is allowed per state. Three individuals will qualify for team awards."

REASONABLE ACCOMODATIONS

Participants with Physical Disabilities – A participant who because of physical disability cannot fire from one or more of the prescribed shooting positions outlined in these rules, or who must use special equipment when firing, may petition for permission to assume a special position or to use modified equipment or both. This petition will be in the form of a written request from the individual participant to the Committee (match director) outlining in detail the reasons why the special position must be assumed or the special equipment must be used. The petition will be accompanied by pictures of the participant in the position desiring approval and, if special equipment is required; the picture will show how this equipment is used. The petition and all pictures must be furnished in exact duplicate. The petition must be accompanied by a medical doctor's statement if the physical disability is not completely evident in the pictures submitted. Only a qualified individual with a disability is eligible for reasonable accommodation. An individual with a disability, for purposes of reasonable accommodation, is defined as a person who has a physical impairment that substantially limits one or more of the major life activities.

Filing a Petition for Accommodations:

(a) Each petition will be reviewed by the Match Director. The Match Director may require additional or supplementary statements or pictures. After review the Match Director will issue special authorization to individuals who submit petitions and pictures which have been approved. Such certificates will have necessary pictures attached.

(b) Participants who have received special authorization will be required to carry them when competing and to present the certificate when requested by officials of the match. In the case of a protest involving the position or the equipment used by such a participant, the range officials will compare the questioned position or equipment with the certificate and photographs presented by the participant. Holders of current NRA authorizations will be honored as valid authorizations but the Match Director must be informed at earliest date possible and not later than at the time of entry.

Fees & Registration Forms

\$10.00 per event. There is no limit to the number of events a shooter may compete in. A \$2.00 late fee for each entry will be added to help keep down late entries. Remember to send in your registrations early. Scheduling can be very difficult, and we must hear from you before then in order to accommodate your needs for your weekend travel to and from the match. Please understand we "honor" pre-paid entry forms on a FIRST-COME, FIRST SERVE BASIS.

Do not assume the distance you have traveled affords your competitors the "right" to be assigned at the time of your choosing. Get your registrations in early!

When competitors have been squadded, registration staff will advise of the actual time each competitor has been squadded to compete. **Earliest firing times will be filled first.** We apologize for any inconvenience for the competitor, however, we cannot take advantage of our volunteers by keeping them late into the evenings, while firing points are left "open" throughout the day.

Check-in

Registration/Check-in tables will be open at 8:00 a.m. on Saturday. **Shooters must check in at least one hour before their competition time.** Competitions start at 10:00 a.m. on Saturday. ***Shooters reporting to their positions late will not be allowed to fire!*** However, consideration will be given if a competitor is traveling between ranges, and the range officer has been notified in advance of the start time. Shooting times for each competitor will be posted at the club. (We will also make every attempt to notify shooting times via e-mail or the internet before the match).

Equipment used in events must also be checked during or before this one-hour period. Shooters will not be able to fire targets for those events without proper equipment check, and will be checked in areas determined by the match director. Ask where to report when checking in. It is your final responsibility to know your shooting time and to have taken care of all registration procedures (checking times, firing points, equipment check, payment & picking up of targets) at least one hour "before" the actual competition. **WE WILL NOT BE AVAILABLE FOR PHONE CALLS ON FRIDAY EVENING call your leader well ahead of time with your questions.** Our policy is to notify your shooting leader if we had to change your preferred time. If your leader has not called you with a change, you most likely can plan to shoot at the times we gave you in advance.

CONDUCT

The New York State 4-H Shooting Sports State Championship is a youth event, as such the use of tobacco and alcoholic beverages, during an event or on the grounds of the sponsoring clubs is not permitted. Violation of this policy by a participant is grounds for dismissal from the New York State 4-H Shooting Sports State Championship. Non-participant violators may be asked to leave.

Dress Code - Participants are expected to dress appropriately for the events in which they will participate. Team uniforms or shirts are encouraged, but not required. Both young people and adults should wear attire appropriate for the weather while remaining modest and socially acceptable. Clothing with sexually suggestive wording or graphics; and alcohol or tobacco advertisement is not appropriate. Range officials have the final word concerning the dress code and may announce or address specific cases. All participants and coaches should remember that they may be having photographs taken or be asked to interview for the media. Remember that you represent all of 4-H Shooting Sports. Make it a positive image!

Behavior and Sportsmanship - All participants, coaches, and spectators are expected to demonstrate the highest level of sportsmanship, supporting the objectives and ideals promoted by the 4-H program in general and the 4-H Shooting Sports Program in particular. Participants or coaches will render aid and/or testimony if asked to do so by any match official. All participants, coaches, and observers are expected to conform to appropriate state 4-H Code of Conduct expectations or volunteer agreements, and the National 4-H Shooting Sports Program Code of Conduct, not only to the letter, but to the intent.

Knowledge of Rules and Procedures – Where possible, each of the events have been associated with a National Governing Body (NGB). An exception to any NGB rule is noted in the “General Rules”. It is the responsibility of each participant and coach to read the NGB rulebook, understand the procedures used in each event, and comply with the rules and standards of the events. Questions are encouraged to clarify any areas of misunderstanding or lack of knowledge. Ignorance of the rules in any event does not obviate their existence. Participants are responsible for knowing the rules of their event and staying within them. Learning the rules of the events is part of the educational process for shooting sports participants.

Event Coaching - As a general rule, limited coaching at the event site is permitted. However, coaching must never disturb other participants. Each county is limited to 1 “coach” per event. A coaching line will be established on each range - behind the participant’s area and firing line and separate from the spectator area. Except during preparation time, coaches are to stay behind the firing line and in the coaching area. Coaches may assist the participant during prep time only. Once shooting for record begins, no coaching is permitted unless the participant asks permission from the range officer. Any request for coach assistance must be initiated by the participant; the coach may not initiate contact with the participant. The participant will put down their equipment, make it safe, leave the line, and then go talk to their coach. Coaches may ask the line officer to have their youth member come back to talk, but may not initiate contact with the participant. Coaches may not handle firearms or equipment after the match begins nor advance to the firing line unless authorized by the range officer. A coach may set up his/her own spotting equipment. Please note that specific coaching instructions may be issued at the range for each event.

Cased Requirement: All firearms must be in a case at all times except when on the range and ready to participate in the event.

Open and Empty: All firearms will remain open and empty until the shooter is on the range and the command to load or fire, is given.

Muzzle Control: Shooters must maintain control of their muzzles at all times. Firearms must be carried in the muzzle up position whenever uncased on the range unless the action is hinged and broken open. Regardless of condition, muzzles may not be pointed toward or rested upon any part of the body of the shooter or another person. Violation of this rule may result in a warning, disqualification from a round, or disqualification from a match.

Audio headphones or ear pieces are not permitted on the firing line or the field. Once an individual or team is called to compete, ear pieces or headphones must be removed and remain off during the competition.

Range officials have the right to check all firearms and equipment prior to its use in competition to determine that it meets qualifications and/or that it is safe. Unsafe equipment will not be allowed on the range.

Eye and Ear Protection Requirement – For all firearm events, eye and ear protection is required. All participants and other persons on or in the immediate vicinity of the firing line, including coaches, range officials and any spectators must wear adequate eye protection (glasses or goggles) and ear protection. The equipment must protect both eyes. Eye protection is recommended for the Archery events.
